Analytical Data Deliverables

Dear Mr. Cintron:

This will serve as the response to your telephone request of November 17 for submittal of supplemental analytical data for the perimeter surficial soil sampling/analysis program conducted at the ALSCO Community Park site.

Enclosed please find one (1) copy of the supplemental analytical data report which has been prepared by our environmental consultant, Eckenfelder, Inc. This package includes all the quality assurance/quality control data in support of the analytical results included in the August 9, 1989 report on the perimeter surficial soil sampling/analysis program.

We trust that this information is responsive to your request and look forward to continuing our cooperative effort during the course of this project.

Should you have any question or comments, please call Doug Loutzenhiser of my staff at (215) 337-6814.

Very truly yours,

  
Samuel B. Balamoun  
Manager
